PROFESSIONAL SUMMARY

Service Management Reliability Engineer with 5+ years of experience in production systems, incident management, and observability within large-scale distributed environments. Proven expertise in ITSM practices including incident, change, and problem management, with a strong focus on operational maturity, compliance, and continuous improvement. Skilled in data analysis, reporting, and cross-functional collaboration to drive production resilience and service-level objectives. Adept at translating operational requirements into documented procedures and enabling development teams through process leadership and automation initiatives.

KEY SKILLS

Service Management: ITSM, Incident Management, Change Management, Problem Management, Service Request Management, ITIL Practices, Service-Level Objectives, Production Resilience

Observability & Monitoring: Splunk, Elastic Stack, Kafka, Monitoring Dashboards, Metrics, Logging, Performance Monitoring, System Diagnostics

Process & Operations: Data Analysis, Business Intelligence, Operational Maturity, Risk Awareness, Compliance, Documentation, Process Development, Continuous Improvement

Technical: DevOps, SDLC, Release Management, CI/CD Concepts, SQL, Distributed Systems, Cloud Fundamentals, Automation

Collaboration: Cross-Functional Team Leadership, Stakeholder Management, Technical Communication, Agile

PROFESSIONAL EXPERIENCE

Marigold Logistics

Remote

Technical Consultant (Freelance)

August 2025 – Present

- Led incident management and production support operations, achieving 99.5% system availability through proactive monitoring and rapid root cause analysis.
- Developed and maintained operational documentation and knowledge base articles, reducing incident resolution time by 30% and enabling consistent service delivery.
- Analyzed operational metrics and provided continuous feedback loop to development teams, identifying resiliency gaps and driving process improvements.
- Collaborated with cross-functional stakeholders to implement automation initiatives, reducing manual operational effort by 25%.

MrPRICE Branded Bargains

Dublin, Ireland

Supply Chain Manager

September 2024 – July 2025

- Managed operational systems and workflows, ensuring high availability and adherence to service-level objectives across distributed processes.
- Conducted data analysis to identify system inefficiencies, implementing improvements that enhanced operational maturity and scalability by 20%.
- Coordinated with cross-functional teams to resolve incidents and support reliability initiatives, aligning operations with business requirements.

QualityKiosk Technologies Pvt Ltd

Mumbai, India

Digital Quality Engineer (Level 2)

April 2021 – July 2023

- Supported large-scale production systems for major banking clients, managing incident, change, and problem management processes with 98% SLA adherence.
- Performed log analysis using Splunk and SQL queries to troubleshoot system issues, providing actionable insights to development teams on operational gaps.
- Developed monitoring dashboards and reporting frameworks, enabling real-time visibility into service health and supporting risk compliance requirements.

- Participated in release validation and deployment activities within SDLC, ensuring production resilience through quality engineering best practices.

KEY PROJECTS

Payments Optimization – IndusInd Bank

- Designed real-time monitoring dashboards using Splunk and Kafka, improving transaction lifecycle visibility and reducing incident detection time by 40%.
- Defined integration requirements for Open Banking and SEPA compliance, ensuring alignment with regulatory and risk-based requirements.

Digital Payments Transformation – ICICI Bank

- Collaborated with architecture and engineering teams to implement cloud-enabled platform, improving scalability and operational resilience.
- Streamlined ITSM processes through integration improvements, achieving 35% reduction in defect rates and enhancing service quality.

EDUCATION

University College Dublin	Dublin, Ireland
<i>Master of Science, Information Systems</i>	August 2023 – September 2024

K.J. Somaiya Institute of Engineering and IT	Mumbai, India
<i>Bachelor of Engineering, Computer Science</i>	July 2018 – June 2021

CERTIFICATIONS

Lean Six Sigma (Green Belt) – In Progress	—	Certified Software Tester – Optimism LLP (2020)	—
Agile Scrum (CSPO) – Planned 2026
